

## Hygiene concept

Valid from 05.09.2022 (will be updated continuously)

### 1. Access criteria

Guests/external company employees/service providers of the company are subject to the recommendation to perform a self-test. Our employees also follow this recommendation prior to entering any VDE Group location. Self-tests are provided at the reception desk of each VDE location. If you have symptoms such as a cough, fever or sore throat, please stay away and get these symptoms diagnosed.

### 2. Room occupancy

Meeting and conference rooms in the building may only be occupied by up to 50% of the possible number of people. Please air the rooms at regular intervals.

### 3. Mask obligation

There is currently no obligation to wear masks. Of course, masks (FFP2 and surgical face masks are available if needed).

### 4. Stay healthy, please.
