

AI QUALITY SUMMIT

Frankfurt, 02 Nov 2022

09:00 – 16:30

The first AI Quality Summit brings together the whole spectrum of experts and decision makers that are needed to achieve and prove quality of AI products.

Register at: <http://ai-q.de/>

We want to discuss quality aspects including robustness, resilience, performance, auditability, transparency, and security. We want to take into account the **regulatory context** of the EU AI Act as well as frameworks from OECD, UNESCO, the Council of Europe and other multinational institutions, the **business need** for Europe to compete on quality in global markets, and the **engineering context** of fundamental scientific, technical, standardisation and operational aspects that make AI quality a tough challenge.

House of Logistics and Mobility GmbH

Bessie-Coleman-Straße 7

Gateway Gardens

60549 Frankfurt am Main

Event organised by

Hessische Staatskanzlei
Hessische Ministerin für
Digitale Strategie und Entwicklung

digitales.hessen

Covid

To ensure a safe event environment, we comply with the current local COVID-19 measures and hygiene regulations. The most important rules for the AI Quality Summit are listed below. We will inform you of any possible changes in good time.

- It is not necessary to confirm vaccination on the site, but we recommend you to get tested before the event.
- If you have any symptoms of illness (e.g. cough, fever) or have been in a high-risk area or a new virus variant area according to the overview of the Robert Koch Institute within the last two weeks, you will not be allowed to enter the premises.
- Please also visit the official website “Corona rules in Hesse” <https://www.hessen.de/handeln/corona-in-hessen/corona-rules-in-english> to find out about the latest regulations for major events in Frankfurt.
