Member of regional association (data can also be filled in by regional association)

Declaration of Consent - Data Protection

I hereby give my consent to VDE for the automatic processing of my personal data. All such data will be used for statutory purposes only. Data will only be transferred to processors for these purposes. No data will be transferred to other third parties. Should membership be terminated, the data will be restricted and afterwards deleted in accordance with statutory periods.

You can request information regarding the storage, the restriction of processing or the transfer of your data at datenschutz@vde.com. Additional Information about data protection is available at <https://www.vde.com/en/privacy-policy>

Information

As an incorporated member, your company profits from the technical-scientific work of the VDE and its national and international ties.

- The VDE serves as a spokesman for the key technologies of electrical engineering, electronics and information technology.
- As an incorporated member, your company supports the non-profit technical-scientific work of the VDE
 - to advance technical and technological developments,
 - to develop technologies based on guidelines and norms.
- The VDE is represented throughout Germany with its state offices, regional associations and local offices.
- As a technical-scientific association, the VDE offers a broad spectrum of seminars and conferences open to all employees of your company at reduced prices.
- You can actively and directly participate in the VDE advisory bodies and committees by contributing your know-how and competence. VDE's regularly scheduled congresses and conferences serve to promote interdisciplinary exchanges.
- The development of VDE regulations for electrical engineering is carried out by the DKE German Commission for Electrical, Electronic & Information Technologies of DIN and VDE. The work of our incorporated members is particularly important in these efforts. This offers your company an interesting option for working with the many norms and standards committees.
- Your company benefits from the work and services of the VDE Testing and Certification Institute. Worldwide, the VDE mark stands for the quality and safety of electrotechnical components, equipment and systems.
- The VDE Verlag is a publishing house offering a broad spectrum of professional journals, specialist books and electrotechnical standards and norms.
